

Professional Food Packaging Manufacturer

ULAS[®]
İSTANBUL/PACKAGING

PRODUCT CATALOG
2023

About Us

ULAS GROUP, which has an important role in the field of wholesale food trade in France and Europe, was able to establish itself among the leading companies in the sector thanks to its experience and its continuous growth over the years.

With its facilities located in a total area of 5000 m², including a closed area of 2700 m² with all the conditions equipment, and equipped logistics vehicles, particularly in France, in many European and African countries.

It provides services to wholesale businesses of foodstuffs.

Let me introduce you to our new factory in Istanbul. It covers an area of approximately 1,000 m², with a team of 50 people. We own more than 20 sets of automatic production equipment in our latest-generation, dust-free workshops for the production of paper-based products and cartons, including burger box, chicken box, salad bowl, lunch box, bowls and bowls, cold cuts box, soup bowl, cardboard lid, cardboard straw, etc.

OUR PRODUCTION CORE COMPETENCIES

Safety and quality

We take quality and safety very seriously therefore we are constantly carrying out inspections throughout the entire process. We track and monitor every element prior, during and after production.

Competitive prices

We are in position to set our own trade prices as we fully control production and delivery costs which gives us a huge advantage over competitors.

On time delivery

Cut out the middle man and decrease delivery turnaround as we ship directly from our manufacturing site and warehouses eliminating all logistics issues

Testing & Standart Production

We measure and record the performance of all raw materials, adhesives, coatings and manufacturing settings. All materials are thoroughly checked and tested in our laboratories before going to production.

Maximum flexibility

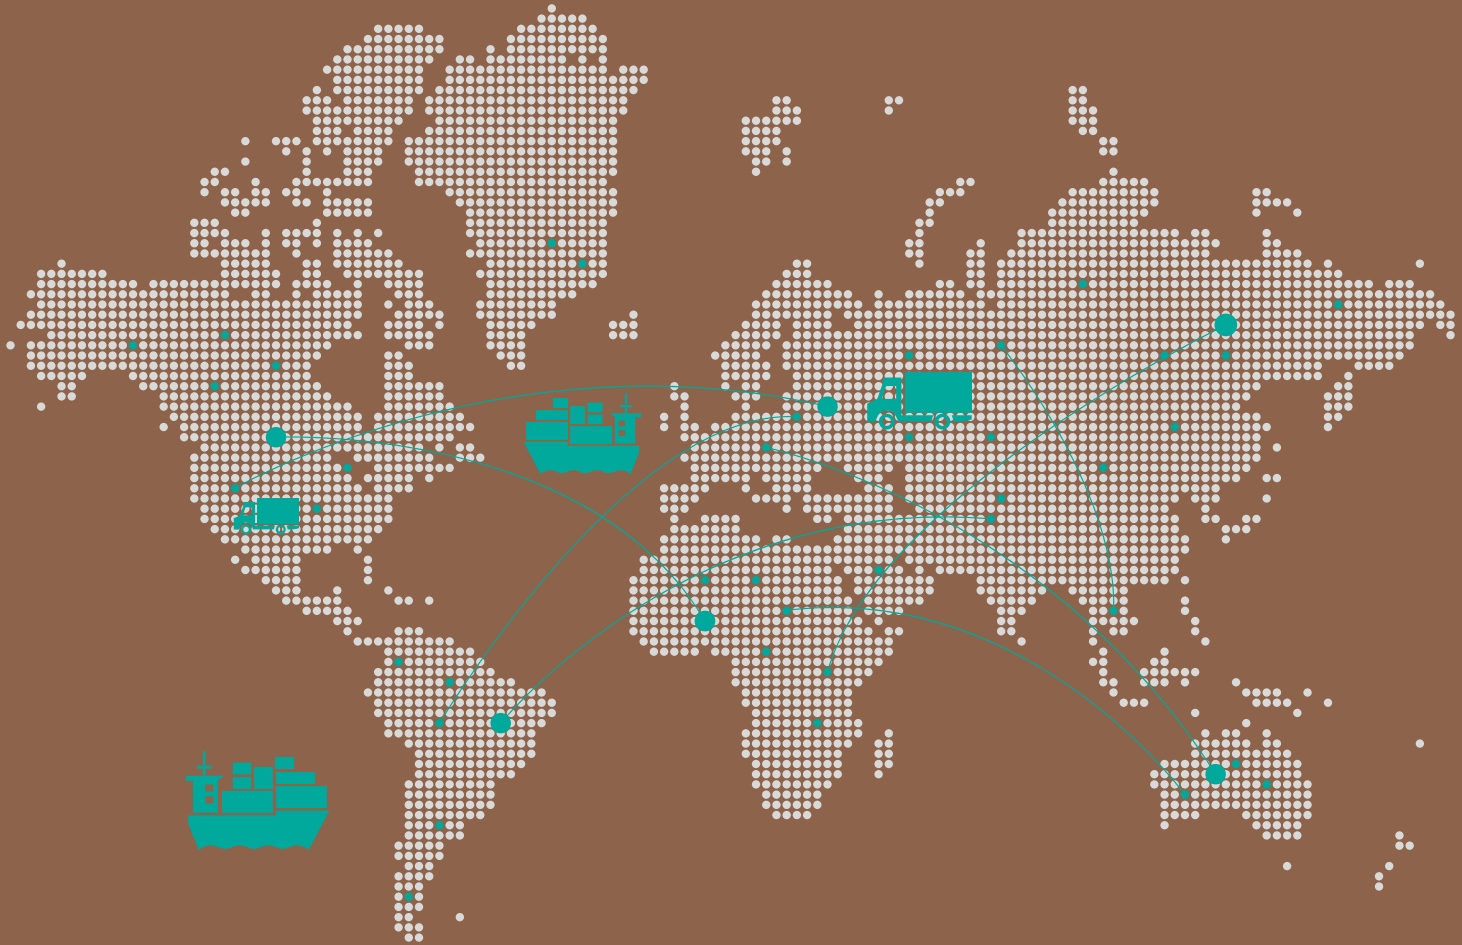

We are able to react to market changes and customer demands rapidly and apply new business processes instantaneously instead of having to contact 3rd parties and manufacturers on the other side of the world.

Tailor made packaging

Bespoke packaging processes are implemented easily and quickly through our in house RnD department limiting error possibilities and time delays.

WE ARE A **MAJOR PLAYER** IN THE GLOBAL FOOD PACKAGING ARENA,
WE EXPORT TO MORE THAN **20 COUNTRIES** WORLDWIDE

WORLDWIDE DELIVERY

Wherever you are located, we guarantee a quick delivery with minimal costs through our sophisticated supply chain. We have put in place an extensive supplier and representative network in order to provide an efficient delivery for our customers around the globe. Our experienced logistics department works closely with our sales team in order to determine the most cost-effective shipping method available that can meet your preferred delivery timescale

PROFESSIONALLY DESIGNED

Branded packaging has the ability to leave a lasting impression on your customers and improve their customer experience: we combine design and quality to create food and drink packaging you can be proud of.

CUSTOM PACKAGING BRAND YOUR PACKAGING

We offer all our customers the possibility to fully customize their packaging enabling them to increase brand awareness and maintain a strong and sustainable image. Our in house design team will work with you closely to help you get the customized design that promotes your business and your image. We offer a variety of custom packaging solutions from putting your own logo and design to our packaging (custom printing) to creating your own packaging that suits your business needs.

Full Colour Printing
Our premium printing technology prints a wide range of colours to suit your brand.

Low Minimum Order
We maintain low minimum order quantities across the majority of our products.

ICONS

OUR PRODUCT KEYS

CERTIFIED PRODUCT

The packaging is ISO and HACCP certified ensuring consistent safety and quality.

HOT CONTENT FRIENDLY

Can be used to carry and store hot food.

RECYCABLE PACKAGING

Products can be recycled after use.

The Showcase Line, as the name implies, is an environmentally friendly way of showcasing your products. The packaging features a transparent lid that favorably displays the contained products. The packaging can be bought as both flat and assembled depending on whether your business is looking to save space or speed up the work process respectively. It can come in diverse shapes and sizes, it's ultimately up to you. What's more, it can be used for food and non-food products. Most brands, for instance, use the Showcase line when shipping and storing handmade items.

Heat seal model available

- Premium feel salad box
- Transparent window for stylish food presentation
- Water and grease resistant • No assembly required
- Microwaveable

Keep drinks hotter for longer by using ripple wall cups.

Made with a double barrier layer, ripple cups help keep hot drinks warm for longer periods of time. They also help protect hands from heat. These cups are popular with coffee shops serving hot drinks such as coffee, tea, and hot chocolate. Ripple wall cups are often paired with sip-thru lids in black and white colours, and cup sleeves.

These are the boxes that provide the hot and safe delivery of pizzas to the consumer in the ready-to-eat food industry. Although the box does not contain any substances harmful to food, it must be produced from 100% Kraft paper. Thanks to the air holes on the back of the Pizza Boxes, the pizzas in the box are prevented from becoming doughy. It is heat resistant.

Packaging for Pizza Box

2 options white kraft and brown kraft

Perfect for all pizza sizes

Compostable Carrier Bags

Strong eco carrier bags, made from a blend of PLA and PBAT, to carry hot takeaway boxes or food shopping. Barcode for retail. On-pack messaging encourages shoppers to reuse as a food waste caddy liner.

Custom Print Minimum Order: 500 Kg

BBG3

BiOBAG
300x140x600

Case Quantity 1000
Case Size 405x695x330mm

Garbage Bag

Certified home compostable, made in Europe from plant-based Mater-Bi. Conventional plastic liners contaminate composting, but certified compostable liners are the only way to truly close the loop. Rethink your bin size – it's not a straight swap. Use up to 30 litres for pure food waste, or larger sizes only if there's lots of used in your bin. Contact info@ulasistanbul.com for advice
